

**Does the Spring/Fall Time Change affect any of the former DSSI Products?
(JOB/SCAN, DOCU/TEXT, INFO/X, PRO/JCL and INFO/XE)**

Former DSSI products use the time returned from MVS.

JOB/SCAN, DOCU/TEXT and INFO/X have no issue with the time change.

PRO/JCL and INFO/XE will need to have the started task bounced after the time change.

If you have any further questions concerning the time change process, please contact us at 800-354-3578 or by email at support@asg.com.
